Discounts offered on family orders -`

- 10% off for orders \$300+

Please understand that exact specifications in design are not promised, keep in mind these are handmade just for you so there will be slight differences in how the colors and patterns appear from piece to piece. The ashes will appear as small light gray specks in the glass matrix along with occasional bubbles. Bubbles are not considered a defect, as they are just a part of the process. Your creation may take up to two weeks to be completed.

In order to properly infuse the glass we need approximately a tablespoon of ashes. All products are able to be infused with ash from both people and/or pets. We can combine ashes from more than one person, mixing of ashes will be done by the customer.

Our hearts are with you during this difficult time. We are so very sorry for your loss. Thank you for allowing us to create a glass art keepsake that will help your loved ones memory, spirit, and light live on.
